About ZOZO

Launched by Azimut as part of the celebrated Grande Series, ZOZO delivers a sculpted and contemporary take on Mediterranean chartering. At 27 m, she offers the presence and volume of a much larger yacht, paired with sleek Italian styling and a highly sociable layout. Her flowing exterior lines and full height windows create a striking profile on the water while also flooding the interior with natural light, giving the yacht a light and open feel throughout.

Outdoor living is a defining feature onboard ZOZO. The expansive flybridge is designed for both relaxation and entertaining, with a convertible hardtop, generous seating, a bar and grill, integrated television and even a DJ booth for lively evenings at anchor. Aft, guests can enjoy relaxed alfresco dining and sun lounging, while the foredeck provides a more private retreat with oversized sun pads and an inviting seating area that is ideal for sunset cocktails or quiet moments underway.

Inside, the interiors by Achille Salvagni create a calm and fluid atmosphere, where soft curves and organic forms replace traditional straight lines. ZOZO accommodates up to ten guests across five well appointed cabins, including a full beam Master Stateroom on the main deck with expansive windows and a rainfall shower en suite. With a varied collection of water toys and spaces that encourage both socialising and downtime, ZOZO offers a charter experience that adapts effortlessly to your pace. Whether you are interested in exploring the coast with the varied water toys or prefer a more relaxed approach, there will be plenty to keep you and your guests entertained.
