

AQUARIUS

— DELIVERY DECEMBER 2016 —

AQUARIUS

92M (301.9FT)

DELIVERY DECEMBER 2016,
FEADSHIP DE VRIES, THE NETHERLANDS

With a maximum speed capability of 17 knots, the 92 metre AQUARIUS will deliver a range of 5,500 nautical miles at 12 knots.

AQUARIUS

This remarkable 92 metre yacht is currently completing the final build stages at Feadship De Vries, to be delivered in December 2016 fully outfitted and ready for her new owner to enjoy. Exemplifying the exceptional standards of construction and craftsmanship for which Feadship is so renowned, AQUARIUS is custom designed for long-range world cruising in an environment of relaxed, contemporary luxury.

Exterior and interior design are by award-winning Sinot Exclusive Yacht Design in close cooperation with Wynn Design & Development. Impressive interior volumes and floor-to-ceiling windows throughout offering panoramic sea views impart a completely new dimension to superyacht living. The yacht features a dedicated owner's penthouse deck, incorporating a private aft terrace, media room and vast stateroom with his and her bathrooms and dressing rooms. Unusually, the six large en suite VIP guest suites are all positioned on the main deck.

A large swimming pool is located on the main deck aft, while the expansive well-executed sun deck provides the ultimate outdoor space. The sea-level beach club leads to a spa area housing a guest gym with fold-down terrace for al fresco workouts, a massage room and beauty salon. Two substantial tenders are stowed in the tender bay which has gull-wing doors to port and starboard. A helicopter landing pad is situated on the foredeck.

AQUARIUS' pedigree credentials combine impeccable engineering with outstanding design resulting in a state-of-the-art superyacht of the highest calibre.

The large foredeck provides a landing pad for an EC135 helicopter.

Expansive deck spaces provide numerous options for outdoor enjoyment and entertaining.

The 6.5 metre (21.3ft) pool on the main deck aft can be transformed into a dancefloor.

Outdoor relaxation areas around the pool.

Each guest deck features vast interior areas.

The unique 128m² (1,380 sq ft) main saloon is the largest lounge ever built by Feadship without structural pillars. Flowing seamlessly out to the aft deck, the space is ingeniously designed to create the perfect indoor-outdoor living environment.

The interior design of AQUARIUS is calm and soothing with vivid colour accents across each deck level. The elegant wall fluting details and coved deck heads complement the large picture windows found in the saloons and guest accommodations which fill the interior with natural light. English sycamore, silk carpets, smooth leathers and beautiful textiles, together with the ivory onyx marble used throughout, combine to provide a sense of timeless luxury.

The large central atrium is dominated by a grand spiral staircase with a multi-level glass wall providing unobstructed external views.

The bridge deck is ideal for informal occasions. There is a cocktail lounge with a pop-up TV in the bar and provision for both indoor and outdoor dining. A significant part of the bridge deck aft can be sheltered by sliding windscreens.

Each deck has been designed to feature expansive areas for outdoor living.

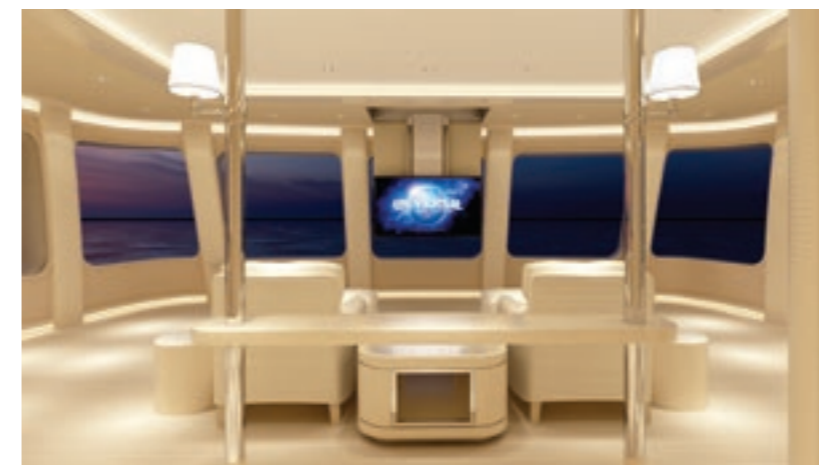

The 28 metre (91.8ft) long sun deck is served by the guest elevator from the main deck. Dining facilities for up to 20 guests in the shade or under the stars are provided by a large sliding canopy. A three metre (10ft) jacuzzi is positioned forward, complete with sunbathing area and banquette seating.

The owner's penthouse deck offers the ultimate in privacy and luxury. Magnificent views are afforded through large expanses of floor-to-ceiling windows. The spacious stateroom features his and hers bathrooms and dressing rooms.

Forward of the stateroom is an observation lounge/media room complete with study area and massage room. Aft is a large private sun deck.

One of the six VIP guest suites, all located on the main deck.

The six VIP guest suites provide spectacular views out to sea through huge floor to ceiling windows, a feature few other yachts can match. Each suite has been designed with a unique colour theme and comes with an en suite bathroom.

Imposing twin stairwells lead from the beach club's large swim platform up to the main deck. The shell door at the transom provides direct access to the spa area which features a well-equipped gym, beauty salon and massage room.

Aquarius has the capability to carry an extensive inventory of tenders and watertoys.
