

125' SEA AXIS

SEA AXIS

SEA AXIS is a custom 125 foot motor yacht built by Heesen in 1988. Her naval architecture, exterior design, styling and engineering are by Frank Mulder of Mulder Design, and her luxurious interior is the work of ArtLine. She had an extensive refit in 2015 and was last refitted in 2026.

The yacht's main deck interior is bright and welcoming. The salon features a lounge area with sofas, chairs, coffee table and a bar surrounded by large windows, and sliding glass doors lead to the aft deck. It's the perfect spot for cocktails and appetizers before a meal in the formal dining area, which includes a long rectangular table and modern seating for 10. The galley and a day head are also found on the main deck. A sky lounge with sofa, chair and a further day head is located on the bridge deck.

SEA AXIS has ample outdoor deck space with everything you need for dining, relaxing, or having fun. The aft deck, adjacent to the salon, has a lounge area with sofa and coffee table, and a shaded al fresco dining area. The bridge deck has a circular seating area around a fire pit, and sun loungers where you can soak up the rays or curl up with a book. The sundeck features an illuminated blue agate bar with seating, a lounge area with a bird's eye view of your surroundings, and a Jacuzzi tub for up to 8 guests that is surrounded by sunpads.

SEA AXIS has an impressive selection of water toys and sports available to charter guests and an extended swim platform. Perfect for a relaxing getaway with family, friends, or a loved one.

SPECIFICATIONS

Length	125 ft (38.10 m)
Beam	25 ft (7.62 m)
Draft	8 ft (2.46 m)
