Description

Ground-breaking, spacious and contemporary, West Nautical is thrilled to present M.Y Wyldecrest – the first ever Sunseeker Ocean 90 to enter the charter market.

Her unique and innovative design with plum bow offers unrivalled volume for her size, presenting beautifully designed entertaining spaces and expansive guest quarters, perfect for special family holidays or vacations with friends in the Mediterranean.

The first of the new Ocean Club line of Sunseeker superyachts, she offers four times the area of a traditional swim platform design. She also boasts innovative 'X-Tend' reclining seats, which allow for extra sunbathing space by extending the aft deck in an all-new design concept. The aft deck also features a retractable screen for privacy when anchored in port.

After days spent on the water enjoying Wyldecrest's fantastic toy box, the fun begins on board. With a top of the range Sonos sound system throughout and an outdoor cinema, guests can enjoy many a magical moment during their charter. Sit back and relax whilst your favourite movie plays against a backdrop of ocean and starlight.

Guests can make the most of spectacular ocean views and alfresco dining on Wyldecrest's flybridge. The carbon fibre hardtop features a huge sliding canopy, offering the option for sun or shade as required. Aft, there is an additional open area with four comfortable sun loungers for guests to enjoy as they wish.

Inside, the main salon is extremely spacious with fully glazed, floor to ceiling windows, resulting in a bright and airy living space. The galley features bar stools and sliding doors, giving the option of an open or concealed cooking area.

Four modern and stylish cabins are located below deck, accessible by two separate staircases. The VIP cabin is forward with the master with the double and twin cabins located amidships. The master features a mirror TV and wonderful contemporary artwork and truly benefits from the yacht's wide beam with previously unseen levels of space. The large ensuite features his and her sinks and a walk-in triple sized shower, complete with a waterfall showerhead.
